

## EECIFLUX MAGNETIC PARTICLE INSPECTION YOKES

### EF-4Y / 5Y MAINS OPERATED AC YOKE

---

#### FEATURES

- ◆ Handy and Light Weight (Weighs only 3 kg.)
- ◆ Articulated legs with 25 x 25 mm pole area.
- ◆ Exceeds specific lift weight requirements.
- ◆ Safe for operators
- ◆ Strong and rugged construction.
- ◆ Suitable to use in all type of industries.

**EECIFLUX Electromagnetic Yokes are a combination of low cost, light weight and articulated doubled joined legs, thereby creating versatile portable magnetic particle equipments.**

**The articulated poles are adjustable from 50 mm to 300 mm making the equipment ideal for inspecting components in various forms.**

## **TECHNICAL DATA**

<b>Pole Distance</b>	50 to 300 mm
<b>Cord Length</b>	2 meters
<b>Input Supply</b>	230 VAC 50 Hz (EF-4Y) 110 VAC 50 Hz (EF-5Y)
<b>Max. Current Drawn</b>	2.5 Amp
<b>Lifting Capacity at 100 mm pole spacing</b>	6 Kg.
<b>Yoke Weight</b>	3 Kg
<b>Controls</b>	-
<b>Battery Operation Time Battery Dimensions (mm) Battery Weight Battery Charger</b>	Not Applicable
